

BIRDS OF THE ADDO ELEPHANT NATIONAL PARK

An Addo Bird Checklist is a complex list as the park is made up of many sections of differing habitat. Be aware that a species on the cumulative list may be recorded from only one section, or may be cosmopolitan across several sections:

Key to Status indicators: R = Resident; S = present in summer; W = present in winter; A = non-breeding visitor recorded throughout the year; V = Vagrant; ? - Uncertain status; c = common; u = uncommon; r = rare; l = localised
